J. H. BURROW'S

THE subscriber respectfully informs the citizens of Chelmanti, and the public generally, that he still continues to manufacture Smiths' Bellows of composed of French Burr Blocks, enclosed in a all sizes at his old stand on Second Street, between east fron case, which forms the back and hoop of Broadway and Sycamore. Cheinnati. From his the Stone, with a cast tron Eye, or Bush, that is of long experience in the business, together with heing provided with a large lot of seasoned lumber top, which is secured at the back by four bolts, so that every block is in the form of a dovetall, which gives greater strength to a Stone, than any other method which is required in small Mills where the Stone is run with great speed, and becomes dangerous if not strongly made. It also gives weight to a Stone of small diameter that is required, without having it thick or high, that makes it top heavy.

This Mill is a square frame, made of wood or east iron, in the form of a busk, with Bridge tree, Spindle Balance, Rine, Driver, and Regulating Screw, and grisds upon the same principle as a large mill, didecing only in the Bunning Stone; this being the great weight, enables it to grind nearer the centre a greater quantity of grain and with less power than ny other mill now in use. This mill is portable, and may be attached to steam, water, horse or hand power.

Also, all sizes of French Burr Mill Stones, manu greater do the same principle.

Joseph H. Burrows, of Cincinnati, is the invenand other materials, he is prepared in all cases to that every block is in the form of a dovetall, which

them up, and all that is necessary to put them in operation isto attach a band to the pulley on the spindle, with a prum sufficiently large to run the 24 inch Mill 240 revolutions per minute; attachep to horse, steam or waterpower. By the steady application of twohorse power, the Mill will grind a to s bushels per hour of good meal, and will grind wheat as well as Corn. The 30 inch Mill, if put to its fullest speed, will grind from 10 to 15 bushels perhour.

Those Millsare warranted to be in every respect

All orders must be directed to
